

PHOTO TIPS

Below are some tips for great photos:

- **Digital photos are preferred. Minimum: 300 dpi (1920 x 1440)**
- **Take photos in an attractive setting free of clutter (background matters)**
- Use the highest quality/lowest number of pictures setting on digital cameras.
- Make sure that your digital camera is not set with a Time/Date Stamp.
- Polaroid, low res. digital photos and photos printed on paper are not acceptable.
- DO NOT CROP IMAGES, may cause images to improperly display on the web site.
- Email photos to info@gpkauctions.com, include lot number in the subject line.
- Shoot Outdoors - Outdoor photography is the best and preferred method.
- Interior photography is suitable only in a controlled studio atmosphere.

Photos should include:

- Front driver's side 3/4 shot showing the entire vehicle
- Front passenger's side 3/4 shot showing the entire vehicle
- Profile shot showing the entire side of the vehicle
- Rear shot of the vehicle
- Interior
- Engine
- Detail shot (anything significant you wish to show)

Help Us Maximize the Selling Potential of Your Vehicle:

Submitting high-resolution quality photos with your description and paperwork will help us promote your vehicle and ensure quality presentation for advertising in both online and print material campaigns.
